Will you be our next Sec of VA? Hope so. Now I understand why Sessions did not request that meeting with Shulkin. The swamp gets drained
Can we meet with you on 21st morning?

Man I don't know if my mind is gone or not.

We have data through so many entities now. But ok, I get it with the VA. That is why I have been in conference calls weekly with Lelia and on the road to visit centers with them.

Did you get my last email about meeting with you and several vets who want to thank you for stepping

up to the plate and speaking for them. Especially on privatizing the VA. And, our comments on the Choice program especially from several who have billed it including me. This would be great PR for the vets and for you and Trumps initiatives. We are reporting on all vet group websites immediately after these meetings and my phone has been ringing off the wall from those wanting to come be with us. Can't bring them all. But, we are bringing an impressive group of vets who have given much to protect this country and are so worthy of our attention. Can you PLEASE let us meet with you on the 21st. Many want to shake your hand for all your help and for you to tell Trump we have his back. I just wish we could tell him. But we can't come that often so I am grabbing for the brass ring for all those who depend on us. Remember I have my own Marine Vietnam and special black ops team guy who was sprayed with agent orange for any months. Mr Bill. This would mean so much to some of the very best if you could meet with them face to face. You have a vision. So do we.

Email or call me back please. I am working like crazy to finalize this trip. So excited to see and meet you

We are just getting started.....slow start, some hurdles and a few naysayers. They all live by data. Can't have data if we don't start establishing serious protocols and levels of service throughout the VAMC's.

Good morning Jake.

We somehow think you were involved and want to send kiddos your way. Great job, Jake. Stay the

course.

I know you are probably weary of my emails and I get it. That is ok. We are on the biggest endeavor of the 18 year history of AAHA in fighting for our vets, for my Vietnam vet, with this treatment that could possible make a difference in the lives of thousands suffering. We will prevail. I will contact you later as to details. You need to know. Stay open, stay true and know that we are right behind you just as we have our Presidents back. What a combination of you two together.

This isn't for HBOT, but at least it is a step in the right direction.
